

When families live with these conditions every day –

- No jobs
- Disease
- Illiteracy
- No toilets
- Homeless
- Trafficking
- Lack of food
- No electricity
- Open sewers
- No playground
- Poor schooling
- No medical care
- Inadequate homes
- Lack of clean water
- Crime/Prostitution/Drugs
- Lack of job skills training
- High incidence of orphans
- No Micro-enterprise development

**they desperately need
an opportunity to
create a better
life for self
and family.**

Thank you! We like this!

Poverty
Prosperity

We guide them in taking personal responsibility to build a new community with

- Jobs
- Homes
- Literacy
- Activities
- Electricity
- Sanitation
- No Disease
- Playground
- Clean water
- Medical care
- Living wages
- No trafficking
- Plenty of food
- Good schooling
- Job skills training
- Adoption of orphans
- Micro-enterprise development
- And much more

You can help Communities like this get started. **Sustainable Family Communities®** that own their own businesses and use the profits, all the profits, to benefit the workers and residents, and to start additional Communities so more people can benefit. Please support our innovative non-profit by contacting us by phone, email, or online.

Hello!
I am Caii-Michelle, the
International Celebrity
Ambassador for the
Leading the way out of
global poverty™ initiative.

Let me explain how this works. The process starts with an influential leader who wants to see less poverty in their country.

That leader asks us, O.F.O.C. for assistance, and then together we establish an in-country nonprofit or NGO with a Board of more leaders. This is called the Country Leadership Organization (CLO).

We work with that Board, of influential leaders in their country, to arrange for the land on which commercial, food-producing businesses will be built. They will also arrange for the funding needed to build the businesses.

Beginning with the construction, there are now more than 100 new jobs, training, wages, bonuses, profit sharing and ownership for those who have been living in the urban slums.

The profits from these businesses are all used in this initiative to create homes, facilities and services that a small community needs, and to help start additional communities.

The communities are designed to have a sustainable economy, environment, food-supply and society that will last for generations to come.

All the benefits of building these communities are for the citizens, economy and society of the nation.
